TROUBLESHOOTING, SERVICE & MAINTENANCE -

This 14-hour course, followed by a two-hour examination, focuses on the service, repair, testing, inspection and preventative maintenance aspects of today's electronic security systems. Troubleshooting, Service and Maintenance offers dealers/integrators an additional revenue stream and the potential for significant profits through these additional services.

This course is ideal for individuals seeking to expand their knowledge on the proper procedures to service, repair and maintain intrusion, fire, video surveillance and access control systems and covers the fundamentals of troubleshooting as well as specific troubleshooting procedures for today's systems.

Subject Areas:

- | | |
|-----------------------------|-------------------------------|
| • Troubleshooting mindset | Preparation |
| • Test equipment | Basic circuit troubleshooting |
| • Panels & power supplies | Burglar alarm devices |
| • Fire alarm devices | Communications |
| • Notification | Video surveillance (CCTV) |
| • Electronic access control | Maintenance and inspections |

Who Should Attend?

Technicians, service personnel, installation personnel, sales staff, code officials and business owners.

Certification(s) available: Certified Service Technician (CST)*
*(See ESA NTS Certification Roadmap for details)

ONLINE TRAINING & CEU COURSES -

- Can't find a classroom course near you?
- Prefer a self-paced training format?
- Want to learn on your own schedule – in the evenings and on the weekends?
- ESA of Ohio / ESA NTS offers nearly 50 hours of online continuing education courses, PLUS
- Online versions are available for many of ESA NTS's most popular courses.
- Online CEU courses can be used to renew certifications or learn new skills

Visit www.SecureOhio.org to REGISTER for the online courses.

WHY EARN AN ESA/NTS CERTIFICATION?

Certifications provide noticeable acknowledgment of your core skills and knowledge.

It provides validity of your abilities to others, including your customers, supervisors, peers, and potential employers.

Not all certifications are equal. To distinguish yourself from your competitors you need a certification that encourages professional growth and is recognized by the industry as the standard.

- Achieve recognized status as an expert in your field
- Attain a competitive edge on your competition or within your company
- Show your customers that you commit to professional excellence
- Pledge to continuously develop your skills and knowledge
- Reach professional and personal achievement
- Keeping your certification active will help you focus on learning new skills and concepts
